Coral Industries, Inc.

History

Coral Industries, Inc. was established in 1976 as a manufacturer of quality bath enclosures. Our past growth can be contributed to the result of customer's success utilizing the many advantages Coral Industries offer: quality, service, innovative design and dependability. At Coral's 325,000 square feet manufacturing facility located in Tuscaloosa, Alabama, in-house capabilities include injection molding of plastic parts, soft and rigid vinyl extrusions, powder coat painted finishing, and complete fabrication of aluminum profiles and glass products, thus giving Coral Industries greater flexibility and control of the entire production process.

Over the years, Coral Industries has expanded by organizing additional divisions and products. **Central Alabama Transport (CAT)** was founded in 1977 and has proven to be a valuable addition to Coral Industries. CAT is a dedicated fleet of trucks which allows for our products to be delivered on a timely basis to distribution centers and businesses across the United States. **Coral Glass Division**, established in 1989, offers a full range of custom fabricated glass, ranging from 1/8" to 1". Coral Glass Division has an assortment of computer operated cutting, fabrication, and tempering machinery that allows for the fabrication of glass to exacting tolerances.

Coral Architectural Products

In keeping with Coral Industries tradition of growth, **Coral Architectural Products (CAP)** was established in January 2005. CAP offers a full line of architectural aluminum entrance doors, storefronts, curtain walls, window walls and protective glazing products. To ensure structural integrity and performance requirements for today's demanding projects; all of our architectural products are tested to current AAMA and / or ASTM performance standards for structural, air and water infiltration at certified independent test laboratories. We have also designed and tested products that meet the stringent requirements of both High Velocity Hurricane Impact Zones and Blast Mitigation. Comprehensive architectural details, installation instructions and test reports are available for each system.

The Product Line

CAP has combined the experience of its management team with over 35 years of designing, testing and marketing in the industry in order to develop **its industry leading** aluminum systems. Each system is designed and tested for simplicity, versatility, maximum performance and ease of installation.

Mission Statement

Coral Industries, Inc. is dedicated to the continuous improvement of the quality of our products, processes and services in order to exceed our customer's expectations.

Coral Architectural Products offers a variety of architectural finishes satisfying the increased demands of the commercial construction industry in terms of finish types and performance, while protecting the environment. Standard finishes include, but are not limited to the following types: anodized finishes, factory applied powder coat and special baked-on liquid painted finishes. Consult with your local Coral sales representative or Coral’s national architectural representative at 1-800-772-7737 for additional surface treatments and options.

Anodized Finishes

Anodic, or anodized, finishes for architectural aluminum profiles are artificially enhanced by a natural process in which aluminum combines with oxygen to form a thin layer of aluminum oxide. The result is an extremely durable finish offering excellent resistance to weathering and corrosion.

ANODIZING FINISH CLASSIFICATION / CODE IDENTIFICATION				
Coral Number	Color	Aluminum Association Specification	Classification	Stock
CLEAR ANODIZED FINISHES				
#11	Clear	AA-M12-C22-A41	Architectural Class I (.7 mils minimum)	Yes
COLOR ANODIZED FINISHES				
#21	Dark Bronze	AA-M12-C22-A44	Architectural Class I (.7 mils minimum)	Yes

* Contact us for lead time.

Powder Coat Painted Finishes

Powder Coat Finishes are high-performance durable architectural finishes offering improved gloss retention and enhanced resistance to chalking and fading. Environmentally friendly, powder coat finishes are solvent-free and provide outstanding mechanical properties and abrasion resistance over solvent based paints. Coral Architectural Products powder coat finishes are available in two levels of performance listed below.

NOTE: Contact the Coral factory for information on custom colors and non-stock finishes.

Limited Product Warranty and Remedy

Customer: _____

Project: _____

Effective Date: _____

Architectural Firm: _____

The Seller warrants, for a period of two (2) years from the date of substantial completion of the project provided however that the Limited Warranty shall begin in no event later than six months from date of initial shipment, that the products manufactured by the Seller shall be free from defects in workmanship and materials, provided that such products have been installed and maintained in strict accordance with all applicable safety and building codes, any and all other applicable standards, and Seller's installation instructions. This warranty is limited to defects discovered or which should be discovered within two years from the date of initial shipment provided that the Seller receives written notification specifying any and all defects within that two-year period. Seller's obligations under this warranty are limited to the repair or replacement of any defective materials and/or the refund by the Seller of the original purchase price paid for the product. The Seller reserves the exclusive right to select one of these remedies. In no event will the Seller be liable for direct, indirect, special or consequential damages including but not limited to loss of profits or use.

SELLER MAKES NO WARRANTY OTHER THAN THAT SET FORTH HERE. ALL OTHER EXPRESS AND IMPLIED WARRANTIES ARE HEREBY EXPRESSLY DISCLAIMED, DENIED AND EXCLUDED. SELLER MAKES NO WARRANTY OF MERCHANTABILITY OR THAT THE GOODS ARE FIT FOR ANY PARTICULAR PURPOSE. SELLER MAKES NO REPRESENTATION AS TO THE PRODUCT'S FITNESS FOR ANY PARTICULAR PURPOSE.

Warranty of Outside Suppliers – Seller makes no warranty, and hereby disclaims any and all express warranties, including but not limited to any warranty of merchantability or fitness for a particular purpose, for any products supplied by Seller, which are manufactured by others. Any warranty of such products is limited to that provided by the manufacturer of those products. The Seller will not assume charges for freight or labor for items manufactured by others and supplied by Seller.

Door Corner Construction
Limited Lifetime Warranty

Customer: _____

Project: _____

Effective Date: _____

Architectural Firm: _____

This Warranty is in addition to Coral Architectural Products (Seller) standard two (2) years limited warranty and is wholly and exclusively applicable to Seller's factory fabricated and assembled aluminum entrance door's dual moment corner construction.

The Seller warrants to its dealers, customers, and all subsequent purchasers and users that its dual moment corner construction assembly shall be free from defects in workmanship and materials for the normal and useful lifetime of the door.

This warranty is effective from the date of substantial completion of the project provided however that the Limited Warranty shall begin in no event later than 6 months from date of initial shipment from Seller's factory and applies only if Seller's doors have been installed and maintained in strict accordance with Seller's published recommended practices and installation instructions and only if Seller is notified in writing within sixty (60) days after such defects appear.

Seller's obligations under this warranty are limited to the repair or replacement of any defective door and/or the refund by the Seller of the original purchase price paid for the door and does not include the replacement of glazing in-fills, gaskets, hardware, doorframe or adjacent framing temporary enclosures, nor any installation charges, labor charges, delivery or freight charges. The Seller reserves the exclusive right to select one of these remedies.

Seller hereby disclaims all Liability for any door that has been subjected to abuse, alterations, modifications, neglect, misuse, abnormal use, accident, fire, war, flood, earthquakes, Acts of God or damage caused by parts not furnished by Seller.

In no event will the Seller be liable for Direct, Indirect, Special or Consequential Damages including, but not limited to, Loss of Profits or Good Will, Loss of Use or Other Commercial Loss or Injury. Seller further hereby disclaims all liability for the installation of Seller's doors. Seller makes no other Representations or Warranties, Express or Implied, including but not limited to any Implied Warranty of Merchantability or Fitness for a Particular Purpose.

Warranty claim may be filed by notifying Seller in writing within sixty (60) days of defect discovery at:

Anodized Finish Limited Warranty

Customer: _____

Project: _____

Architectural Firm: _____

This warranty is in addition to the Coral Architectural Product's standard product warranty.

Coral Architectural Products ("CAP") warrants for a period of two (2) years, from the from the date of substantial completion of the project provided however that the Limited Warranty shall begin in no event later than six months from date of initial shipment, materials from CAP's plant, that all exposed aluminum on the above project furnished by CAP shall conform to the following:

The said aluminum will not develop excessive fading or excessive non-uniformity of color, and will not crack, peel, pit or corrode, all within the limits defined as follows:

"Excessive fading" means that all change in color during the period of this warranty shall not exceed 10% or a value of 4, whichever is greater, above or below the original limits of acceptable color range for the color specified, as color is expressed in units of color measures (DELTA E) derived by photoelectric trisulphur colorimetry as described by circular B-429 of the National Bureau of Standards.

"Excessive non-uniformity" means non-uniform fading during the period of the warranty to the extent that adjacent panels have a color difference greater than the original limits of acceptable color expressed in the same system of color measurement described above.

"Will not pit or corrode" means that there shall be no pitting or other type of corrosion discernible by the naked eye from a distance of 10 feet resulting from the natural elements in the atmosphere at the project site.

This Warranty applies only if such anodized material is installed in strict accordance with CAP's recommended practices and maintained in accordance with American Architectural Manufacturers Association (AAMA) Publication Number 609.1 "Voluntary Guide Specification for Cleaning and Maintenance of Architectural Anodized Aluminum". AAMA Publication No. 609.1 will be furnished upon request. This Warranty does not cover, and CAP hereby expressly disclaims, all liability for and with respect to any material which has been subject to abuse, alteration, modification, neglect, misuse, abnormal use, accident, fire, war, flood, earthquake or acts of God.

The sole and exclusive remedy with respect to this Warranty shall be repair or replacement of the defective material or repayment by CAP of the purchase price paid therefore. CAP reserves the right to select the remedy.

The foregoing is extended solely to the Customer and is granted IN LIEU OF ALL OTHER GUARANTEES AND WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING, WITHOUT THE GENERALITY OF THE FOREGOING, ANY GUARANTEE OR WARRANTY OF MERCHANTABILITY OF FITNESS FOR A PARTICULAR PURPOSE.

SAMPLE WARRANTIES

Painted Finish Limited Warranty

D2000 Powder Coat Finish

Customer: _____

Project: _____

Date of Substantial Completion: _____

This conditional limited warranty is in addition to the Coral Architectural Product's conditional limited standard product warranty. Coral Architectural Products (CAP) warrants that during the warranty period there will be:

Clause 1

- No visible checking* or cracking* of the **Interpon D2000™** powder coating.
- No chalking* of the **Interpon D2000™** powder coating in excess of that represented by Number 8 rating based on ASTM D4214.
- No color change of the **Interpon D2000™** powder coating greater than 5 (five) CIE Lab AE units calculated in accordance with ASTM 2244 Section 6.3. Color change shall be measured on the exposed surface which has been cleaned of oil, grease, chalk and oxidized film or other contaminants. Corresponding values shall be measured on the original retained batch panel. (Panel stored in the dark at temperatures below 30° C).

Clause 2

- Gloss Retention of the **Interpon D2000™** powder coating when applied to test panels will be greater than or equal to 30% after 5 years exposure in Florida (facing 45° South) in accordance with the requirements of AAMA 2604-02 Clause 7.9.1.4.2.
- Adhesion of the **Interpon D2000™** powder coating when initially applied to test panels and measured by reference to AAMA 2604-02 Clause 7.4.2 will show no removal of the film.

Warranty Terms and Conditions

- The "Warranty Period" for the warranties in Clause 1 shall mean the period of fifteen (15) years, and for the warranty in Clause 2 shall mean five (5) years, commencing on the date of substantial completion of the project or six months from the date of the initial shipment, whichever is sooner?
- Color measurements (delta E) are measured at 10 degrees and on exposed coated surfaces that have been cleaned of all external deposits including chalk and compared to the original unexposed coated surface. For comparison purposes, CAP will maintain a standard paint panel and/or documentation indicating color, gloss and other properties. It is understood that fading may not be uniform if the coated surfaces are not equally exposed to the sun and weathering elements. Prior to the determination of a gloss value using an angle of incidence of 60 degrees following ASTM D523, the surface must be cleaned using a 1% aqueous solution of a wetting agent with a soft sponge under light pressure.
- This warranty extends only to parts exposed to normal atmospheric conditions in the United States.
- A systematic maintenance program must be instituted to clean the surface periodically so as to prevent accumulations of salt deposits and harmful pollutants.
- This Warranty applies only if such painted material is installed in strict accordance with CAP's recommended practices and maintained in accordance with American Architectural Manufacturers Association (AAMA) Publication Number 610.1 "Voluntary Guide Specification for Cleaning and Maintenance of Architectural Painted Aluminum". AAMA Publication No. 610.1 will be furnished upon request.
- Maintenance: The cleaning recommendations for **Interpon D2000™** is an integral part of the warranty given for gloss, color retention and chalking. The warranty requires that regular cleaning has to be performed periodically, at least once a year and twice a year for structures directly exposed to areas of high salt concentration, such as near a seashore.

Painted Finish Limited Warranty

D2000 Powder Coat Finish

The conditions are as follows:

- ◆ Clean water with slight amounts of mild alkaline detergents must be used.
- ◆ The cleaning effect maybe increased by rubbing with a soft, non-scratching cloth or cotton with modest pressure.
- ◆ The temperature of the parts to be cleaned must not exceed 80° F.
- ◆ For removal of grease and oily substances isopropyl alcohol may be used.
- ◆ The cleaning solution must not be allowed to react for more than one (1) hour.
- ◆ After cleaning the surfaces must be rinsed with clean, cold water.
- ◆ A proper maintenance record has to be kept and documented. This documentation must contain the following information:
 - ✓ Date
 - ✓ Name and address of performing party
 - ✓ Description of cleaning procedure and detergents used
 - ✓ Signature of person performing the cleaning procedure

This warranty does not extend to:

- a) Damage to the coating caused by moisture or other contamination during storage of the powder or substrate or application;
- b) Damage to the coating during handling, shipping, processing, installation, improper cleaning or maintenance, etc.;
- c) Damage caused by impact, external forces, abrasion, environmental pollution, acid rain, immersion in salt water, hail, abnormal weather conditions, exposure to excessive temperatures (in excess of 150 F), solvents or chemicals, tapes, sealants, acts of God or other abuse; or
- d) Damage due to other circumstances beyond CAP's control.

Claim Procedure

In the event of a claim, claimant shall demonstrate that the failure of the product was due to a breach of this warranty and furnish proof of purchase of the defective CAP product. Claims must be made in writing within thirty days after the customer becomes aware of the failure or potential failure of the coating. CAP must be given an opportunity to inspect the substrate and coating that form the basis for the claim.

The sole and exclusive remedy with respect to this Warranty shall be repair or replacement of the defective material or repayment by CAP of the purchase price paid therefore. CAP reserves the right to select the remedy.

The foregoing is extended solely to the Customer and is granted IN LIEU OF ALL OTHER GUARANTEES AND WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING, WITHOUT THE GENERALITY OF THE FOREGOING, ANY GUARANTEE OR WARRANTY OF MERCHANTABILITY OF FITNESS FOR A PARTICULAR PURPOSE.

Per the American Architectural Manufacturers Association, (AAMA) Aluminum Storefront and Entrance Manual, section regarding Consideration of the Elements:

“Air and water infiltration may be difficult to control under severe conditions. Specific clearances are necessary between a swinging type door and frame, to prevent a metal-to-metal contact. Weathering will normally take care of these conditions and an applied sweep will normally close up to a 5mm (.19) clearance between a bottom rail of the door and the threshold or finished floor.”

Coral Architectural Products does not test our entrance door products for water infiltration and make no claim that they are impermeable to water. The Aluminum Storefront and Entrance industry does not typically perform this testing. Coral’s door products are a great addition to your entrances, will provide years of exceptional service, and will resist most weather conditions, especially when coupled with building design considerations for water control.

TERMS AND CONDITIONS OF SALE

- 1. Acceptance of Orders and Minimum Charge** – All orders are subject to credit approval and acceptance by the Seller. Minimum charge is \$50.00 net per order.
- 2. Acceptance of Terms** – Should the Buyer object to any of the Seller's terms and conditions, the Buyer must forward objections in writing to the Seller together with Buyer's purchase order or request for quotation. If a written objection is not received by the Seller, and accepted in writing by an officer of the Seller, the Buyer shall be deemed to have assented to all of the Seller's terms and conditions. None of the Buyer's terms and conditions are acceptable to the Seller unless the Buyer's terms and conditions are agreed to in writing by an officer of the Seller prior to the acceptance of the Buyer's order or as a part of the Seller's job quotation. Otherwise, the sale is conditioned upon the Buyer's acceptance of the Seller's terms and conditions and any orders accepted by the Seller are accepted and conditioned upon the Seller's terms and conditions as the only terms and conditions applicable to the sale. None of the terms and conditions in the Buyer's purchase order, acknowledgement form, confirmation or other document issued by the Buyer which conflict with the Seller's terms and conditions, or increase the Seller's obligations, shall be binding on the Seller unless specifically identified and accepted in writing by an officer of the Seller.
- 3. Claims** – Claims by the Buyer for defective materials or workmanship must be submitted in writing to the seller within ten (10) working days after receipt of shipment. Unauthorized back charges, claims, deducts, or withheld payments will not be accepted. The Seller shall have the exclusive right to select the final remedy for defective material, which will be expressly limited to the repair, replacement, or repayment of the original purchase price paid by the Buyer upon return of the material to the Seller. Seller shall not be liable for any penal, incidental or consequential damages.
- 4. Back Orders** – Back orders or any portion of the order omitted from the original shipment will be invoiced at the same price, terms, and conditions as if it were part of the original shipment.
- 5. Cancellations and Returns** – Cancellation and return of custom orders will result in substantial cost to the Buyer. The Seller will issue a credit for the scrap value only on these orders. Return or cancellation of standing stock items may be made provided the Seller has issued prior written authorization. Returns must have an Return Material Authorization number (RMA) assigned by Seller. Any standard stock material received in a resalable condition will be credited based on a 20% restocking charge of the Seller's sale price with a minimum charge of \$100.00 net. The customer must pay all freight charges on returned goods. No material will be accepted for return beyond 60 days from the original shipment date.
- 6. Change Orders** – Orders shall not be amended, modified or rescinded except by written change order signed by an authorized official of each party expressly referring to a specific change and order. All change orders affecting completed or in-process work on the Buyer's original order will be subject to a change order charge to be determined by the Seller.
- 7. Clerical Errors** – Clerical and arithmetical errors are subject to correction by the Seller.
- 8. Credit Extension** – No credit will be extended by the Seller unless the Buyer's credit has been approved and is satisfactory at the time of shipment. The Seller reserves the right, at any time, to revoke credit extended should Buyer fail to pay for goods when due or for any other reason deemed sufficient by the Seller.
- 9. Delays in Shipping** – Seller will use its best effort to ship goods ordered by Buyer on scheduled shipping dates. Seller shall not be liable to Buyer for damages for late shipments nor shall the validity of the agreement be affected by Force Majeure; meaning acts of God, fire, war, civil commotion, strikes, shortages of labor or materials, casualties, or any other conditions beyond the control of Seller. If a Buyer elects to delay shipment of goods later than the original shipping date, the Seller may invoice Buyer on original shipping date and Buyer agrees to pay as if the goods were timely shipped. Buyer also agrees to pay reasonable storage charges in the event of such delayed shipping.

General Information

Terms and Conditions

- 10. Design Responsibility** – The Seller’s continuing endeavor to provide the best in product technology requires Seller to retain the right to change or modify its products without prior notice. The product illustrations used in the Seller’s brochures and catalogs are for identification only and may not represent the size or proportions by comparisons. If any material shall be manufactured or sold by the Seller to meet the Buyer’s specifications or requirements and is not part of the Seller’s standard line offered to the general trade in the usual course of the Seller’s business, then the Buyer agrees to indemnify, defend, protect and hold harmless the Seller against all claims, damages and lawsuits for actual or alleged infringement of any U.S. or foreign patent.
- 11. Entire Contract** – These terms and conditions reflect the entire agreement between the Seller and Buyer and supersedes all prior negotiations and agreements, oral or written. The agreements reflected herein may not be modified or altered except by a written agreement signed by officers of both the Seller and Buyer.
- 12. Indemnification** – Buyer waives and agrees that in the event of any breach of this agreement by Seller. Seller shall not be responsible to Buyer or any third parties for any incidental or consequential damages suffered by Buyer or third parties other than the Seller’s exclusive right to select the final remedy which will be expressly limited to the repair, replacement or repayment of the original purchase price paid by the Buyer. In the event of a claim for consequential or incidental damages, Buyer agrees to indemnify and hold harmless the Seller from such claims and damages.
- 13. Jurisdiction and Governing Law** – (Laws of State of Alabama) Any controversy or claims arising from or relating to this contract shall be settled by arbitration in accordance with the Commercial Arbitration rules of the American Arbitration Association, and judgment upon the award rendered may be entered in court having jurisdiction thereof.
- 14. Late Payment** – Unless otherwise expressly provided, all payments are Net 30 Days after date of invoice. Seller may at any time require payment in advance or satisfactory security that invoices will be paid when due, if in the Seller’s judgment the same becomes necessary. All orders are subject to credit approval and to acceptance by Seller. If payment is not made when due, 1 % per month interest will be charged thereon from the due date until paid.
- 15. Limitation of Liability** – The Seller’s only liability for defective materials shall be limited to the Seller’s exclusive right to select the final remedy which will be expressly limited to the repair, replacement or repayment of the original purchase price by the Buyer. Repayment is to be made to the Buyer upon return of defective material to the Seller. Under no circumstances will any job site repairs or replacements be made or labor charges for same be accepted.

Commercial aluminum storefront and entrance doors are primarily designed for:

1. Exterior applications
2. To swing or open out
3. In the case of double acting doors, to swing in and out

Because of the design, and due to building codes and life safety laws prohibiting such, single acting doors may never swing inward when installed in an exterior application. However, when used for interior applications (Example: Interior office doors), unless prevented by a particular building code, doors may swing in, or open to the interior.

HAND: All single acting swing doors are handed. The hand of a single acting swing door indicates which side it is hinged on (or will swing from) and the direction in which it is to swing. When determining the hand of a door, it should be viewed from the exterior. It will either be hinged on its left side, or hinged on its right side, and (for exterior applications) will always swing out. For interior applications, it may swing in.

The “hand” of a door is designated as follows.

For **Exterior applications** (as viewed from the exterior):

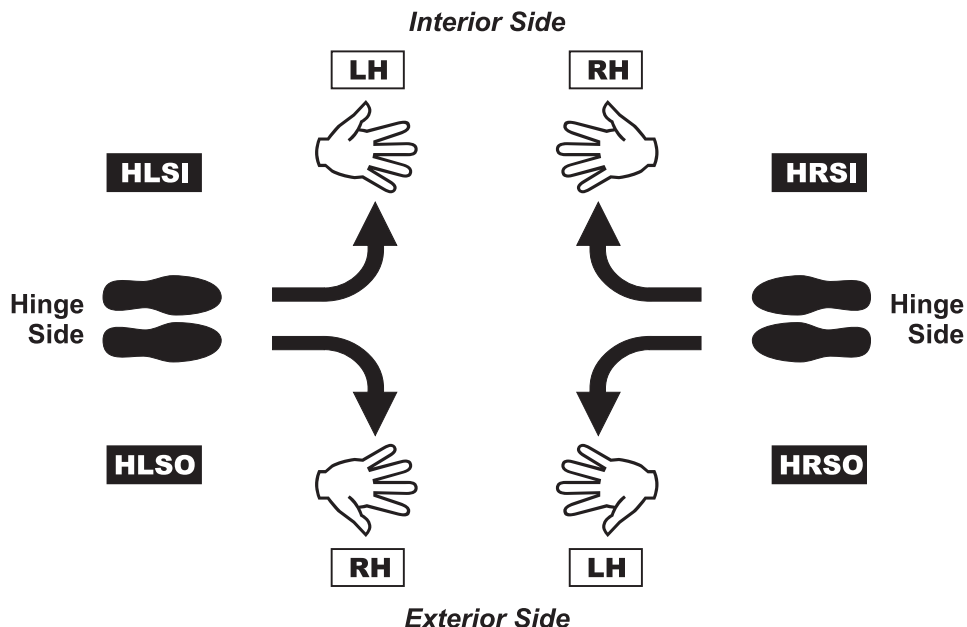

1. HL SO Hinge Left Swing Out = RH (Right Hand Door)
2. HR SO Hinge Right Swing Out = LH (Left Hand Door)

For **Interior applications** (as viewed from the exterior):

1. HL SO Hinge Left Swing Out = RH (Right Hand Door)
2. HR SI Hinge Right Swing In = RH (Right Hand Door)
3. HR SO Hinge Right Swing Out = LH (Left Hand Door)
4. HL SI Hinge Left Swing In = LH (Left Hand Door)

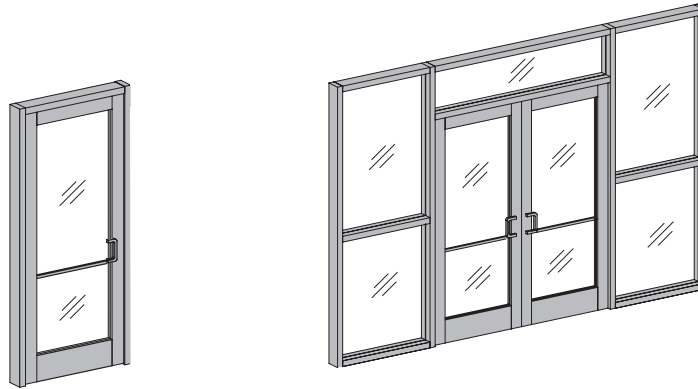

SINGLE ACTING commercial aluminum entrances are designed for exterior applications and to open or “swing” in an outward direction. To determine the “hand” of a single acting entrance, envision placing your back against the hinge side of the opening and extend whichever hand would be appropriate for the direction the door opens.

Only entrances used in interior applications are allowed to swing in an inward direction. The same method described above for determining the “hand” of the door applies

Entrances

Door Types & Descriptions

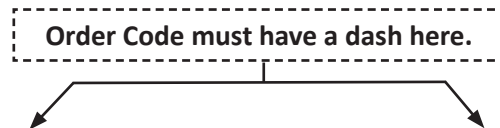

Aluminum Entrance Doors	VERTICAL STILE	TOP RAIL	BOTTOM RAIL	RECOMMENDED LIMITATIONS	TRAFFIC APPLICATION
Series 213 Narrow Stile	2 1/8"	2 1/4"	4"	3'-3" x 8'-0"	Normal
Series 380 Medium Stile	3 3/4"	4"	7 1/2"	3'-6" x 9'-0"	Moderate
Series 500 Wide Stile	5"	4"	7 1/2"	3'-6" x 9'-0"	Heavy

Note: Entrance doors exceeding 3'-6" in width or 7'-6" in height require an intermediate butt hinge or pivot.

Commercial aluminum storefront and entrance doors are primarily designed for:

1. Exterior applications
2. To swing or open out
3. In the case of double acting doors, to swing in and out

Because of the design, and due to building codes and life safety laws prohibiting such, single acting doors may never swing inward when installed in an exterior application. However, when used for interior applications (Example: Interior office doors), unless prevented by a particular building code, doors may swing in, or open to the interior.

HAND: All single acting swing doors are handed. The hand of a single acting swing door indicates which side it is hinged on (or will swing from) and the direction in which it is to swing. When determining the hand of a door, it should be viewed from the exterior. It will either be hinged on its left side, or hinged on its right side, and (for exterior applications) will always swing out. For interior applications, it may swing in.

The “hand” of a door is designated as follows.

For **Exterior applications** (as viewed from the exterior):

1. HL SO Hinge Left Swing Out = RH (Right Hand Door)
2. HR SO Hinge Right Swing Out = LH (Left Hand Door)

For **Interior applications** (as viewed from the exterior):

1. HL SO Hinge Left Swing Out = RH (Right Hand Door)
2. HR SI Hinge Right Swing In = RH (Right Hand Door)
3. HR SO Hinge Right Swing Out = LH (Left Hand Door)
4. HL SI Hinge Left Swing In = LH (Left Hand Door)

SINGLE ACTING commercial aluminum entrances are designed for exterior applications and to open or “swing” in an outward direction. To determine the “hand” of a single acting entrance, envision placing your back against the hinge side of the opening and extend whichever hand would be appropriate for the direction the door opens.

Only entrances used in interior applications are allowed to swing in an inward direction. The same method described above for determining the “hand” of the door applies

Page Left Intentionally Blank

Aluminum Entrance Doors	VERTICAL STILE	TOP RAIL	BOTTOM RAIL	RECOMMENDED LIMITATIONS	TRAFFIC APPLICATION
Series 281 Narrow Stile	2 1/8"	2 1/4"	7 1/2"	3'-0" x 7'-0"	Normal
Series 381 Medium Stile	3 3/4"	4"	7 1/2"	3'-6" x 8'-0"	Moderate
Series 581 Wide Stile	5"	4"	7 1/2"	3'-6" x 8'-0"	Heavy

Note: All Impact doors require 1-1/2 pair butt hinges.

Note: Impact Doors with 1" insulated glazing and a door height > 84", require 2 pair of Butt Hinges.

Page Left Intentionally Blank

Impact-Resistant Entrances & Frames

NOTES AND POLICIES COMMON TO EACH PRODUCT

(Unless otherwise specified)

- Series 281 Narrow Stile Door size may not exceed 36" x 84" for single and 72" x 84" for pairs.
- Series 381 Medium Stile Door size may not exceed 42" x 96" for single and 84" x 96" for pairs.
- Series 581 Wide Stile Door size may not exceed 42" x 96" for single and 84" x 96" for pairs.
- Reference Options and Limitations for Series 281, 381 and 581 Impact-Resistant Doors.
- SWING-IN DOORS ARE NOT OFFERED FOR IMPACT APPLICATIONS.
- DOOR JAMBS AT WALL REQUIRE FL515 FLAT FILLER WHICH IS NOT INCLUDED IN FRAME PACKAGE.
- TH4 mill finish threshold is standard on all doors without a panic device.
- TH5B bumper threshold is standard on doors with panic devices.
- Allow additional time for these doors and frames.
- Heavy duty closers are required for impact doors due to extra weight and size.
- Doors were not tested for water infiltration.
- All Impact doors require 1-½ pair butt hinges.
- Impact doors with 1" glazing and > 84" DOH (Door Opening Height) require 2 pair butt hinges.

Hurricane Impact-Resistant Products Disclaimer Note

Coral's hurricane impact-resistant products meet a variety of test standards for applications in coastal construction regions satisfying the demands for wind-borne debris hazards and high-velocity winds associated with hurricanes. All of Coral's hurricane impact-resistant products are independent laboratory tested based on a variety of test standards for air infiltration, structural loads, missile impact and air-pressure cycling based on ASTM and/or Florida Building Code. The informational chart above is intended to provide recommended limits in frame heights, glass sizes and design pressures based on product testing. When exceeding conditions listed above it is recommended to consult with licensed structural engineer or contact Coral Architectural Products.

Hurricane Impact-Resistant Products Disclaimer Note

Coral's hurricane impact-resistant products meet a variety of test standards for applications in coastal construction regions satisfying the demands for wind-borne debris hazards and high-velocity winds associated with hurricanes. All of Coral's hurricane impact-resistant products are independent laboratory tested based on a variety of test standards for air infiltration, structural loads, missile impact and air-pressure cycling based on ASTM and/or Florida Building Code. The informational chart above is intended to provide recommended limits in frame heights, glass sizes and design pressures based on product testing. When exceeding conditions listed above it is recommended to consult with licensed structural engineer or contact Coral Architectural Products.

Hardware Applications

Locking and Closer Options		
Active Leaf	DH072 3-Point Lock with DH078 Cylinder and DH079 Thumbturn	
Inactive Leaf	DH176 Steel Tip Flush Bolts (2 each)	
Surface Applied Closer	Heavy Duty ANSI Grade 1 (Required)	
Concealed Overhead Closer	ANSI Grade 1 (Required)	
Hinging Options		
Type	Description	Quantity
Butt Hinges	DH110SS (Stainless Steel) 4 ¹ / ₂ " x 4"	1 ¹ / ₂ Pairs
Continuous Geared Hinge	DH111HD (Heavy Duty)	Full Door Height
Panic Exit Devices Options		
First Choice	DH3692 ANSI Grade 1	Concealed Vertical Rod
First Choice	DH3192 ANSI Grade 1	Mid Panel Panic
Jackson	DH2086 ANSI Grade 1	Concealed Vertical Rod

Qualified Glass Types

Glass Type	Glass Composition			Interlayer Manufacturer	Glass Identification
³ / ₁₆ " Monolithic Glass	¹ / ₄ " Heat Strengthened Glass	.090 SentryGlas	¹ / ₄ " Heat Strengthened Glass	Kuraray	D

Impact Entrances

Butt Hinge

Butt Hinge Door Package Includes

- Traditional 1" rd Pull/Push Hardware
- Glass Stops for 3/4" or 1" Glazing
- 1 1/2 Pair 4 1/2" x 4" SS Butt Hinges
- 3 Pt Lock - Single or Active Leaf
- Top & Bottom Steel Flush Bolts Inactive Leaf
- Keyed Cylinder Exterior
- Thumb Turn Interior
- Door Sweep w/ Weathering

Note: Reference Hardware Section of the Price Catalog for Door Closers and Loose Hardware Items not included in Standard Entrance section.

Note: All Hardware on Powder coat products is furnished in a standard clear finish.

Hurricane Impact-Resistant Products Disclaimer Note

Coral's hurricane impact-resistant products meet a variety of test standards for applications in coastal construction regions satisfying the demands for wind-borne debris hazards and high-velocity winds associated with hurricanes. All of Coral's hurricane impact-resistant products are independent laboratory tested based on a variety of test standards for air infiltration, water resistance, structural loads, missile impact and air-pressure cycling based ASTM and/or Florida Building Code. The informational chart above is intended to provide recommended limits in frame heights, glass sizes and design pressures based on product testing. When exceeding conditions listed above it is recommended to consult with licensed structural engineer or contact Coral Architectural Products.

Qualified Glass Types

Glass Type	Glass Composition			Interlayer Manufacturer	Glass Identification

⅝" Monolithic Glass	¼" Heat Strengthened Glass	.075 Vanceva Interlayer	¼" Heat Strengthened Glass	Solutia	A
⅝" Monolithic Glass	¼" Heat Strengthened Glass	.090 Saflex PVB Interlayer	¼" Heat Strengthened Glass	Solutia	B

Comparative Analysis of Glass Based on ASTM E-1300

Dade County Building Compliance Office allows comparative analysis of tested glass types provided the following five conditions are met:

1. Does not exceed maximum cyclic pressure tested.
2. Does not exceed maximum span of mullion tested.
3. Does not exceed maximum mullion spacing of mullion tested.
4. Does not exceed maximum square footage of largest lite tested.
5. Does not exceed aspect ratio of 5:1 (in a rectangular configuration, the ratio of the long-side to the short-side is defined as the aspect ratio).
