CHALLENGES IN  
GLASS MAINTENANCE

## Clarvista™ Glass

by PPG

## Clarvista™ Glass by PPG

Clarvista™ Glass by PPG is an innovative glass for shower enclosures that, with regular maintenance, looks newer, longer than standard clear glass.

Clarvista™ glass is produced with a proven and reliable manufacturing method that seals the glass surface so that it is more resistant to the corrosive action of moisture, humidity and the chemicals found in many household cleaners.

### WARRANTY INFORMATION

As the manufacturer of shower enclosures and glass products using Clarvista™ glass, Coral Industries, Inc. supports a 10 year limited warranty on Clarvista™ glass by PPG, glass manufacturer.

When properly installed as part of an indoor shower enclosure, and regularly maintained according to specified recommendations, Clarvista™ glass is warranted to the original end-user to be free from visible corrosion for a period of ten years from the date of manufacture. Liability is limited, at Coral's exclusive option, to Coral providing replacement Clarvista™ glass or refunding the difference in the original end-user's purchase price between Clarvista™ glass and standard glass, up to a maximum of \$10 per square foot.

**CONDITIONS** - Limited warranty extends to the original end-user and is non-transferable. This limited warranty does not cover scratches, chips, breakage or claims for glass that has been discarded or destroyed before an authorized Coral representative has inspected it. Warranty is void if the installation, handling, or maintenance guidelines are not followed. Limited warranty does not cover labor charges or other costs relating to the removal or reinstallation of either the original Clarvista glass or the replacement glass.
